INSTRUCTIONS: Draw your building floor plan with the street entrance at the bottom of the page. Show entrances, exits, utility shut-offs, emergency response equipment and storage areas. Identify and show the approximate quantity and location of any hazardous materials in the building. Show any pipeline used to transport hazardous materials, state whether it is above or below ground, and identify the material in the pipeline. PLEASE make your drawing as large and as clear as space permits because your drawing WILL BE USED by the Fire Department in the event of an emergency at your business. Thank you.
